

Advanced Acu-facial therapy™ with Acupressure-Massage

Give your face the ultimate workout with the 'no needle' version of the Acu-Facial with Cosmetic Acupuncture. This luxurious, hands-on facial combines advanced facial massage, using lifting and sculpting techniques and Chinese massage tools such as facial gua sha, with facial cupping.

- Lifting, plumping and contouring
- Detoxifying and de-puffing
- Brighter, clearer and smoother skin

How does it work?

A unique sequence of highly effective massage techniques target both the surface and deep facial tissues, helping to release tension in the face, jaw and neck, boosting circulation, relaxing expression lines and improving lymphatic flow.

In addition to facial acupressure-massage, your Advanced Acu-facial therapy™ treatment may include a sonic facial cleanse, peels, a selection of serums, masks and LED light therapy for enhanced results.
