

# Advanced Acu-facial therapy™ with Cosmetic Acupuncture

Turn back the clock with this advanced anti-ageing facial. A safe, effective and virtually painless treatment. Ideal for dull, lacklustre complexions or ageing skin.

- Lifting and toning sagging facial muscles
- Fine line and wrinkle smoothing
- Firmer, more radiant and rejuvenated skin

## How does it work?

The gentle acupuncture uses ultra-fine, single-use needles inserted into specific points in the face, ear, and body to gently stimulate the circulation, improve collagen production, radiance and muscle tonicity.

In addition to cosmetic acupuncture your Advanced Acu-facial therapy™ treatment may include a sonic facial cleanse, peels, acupressure, lymphatic drainage, face lifting techniques and jade rollers, LED light therapy and a selection of serums and masks for enhanced results.
